ABOUT

Springer Nature is a leading global publishing company that specializes in academic and scientific literature. Springer Nature has since become one of the largest and most influential publishers in the world. The company operates in the fields of science, technology, medicine, humanities, and the social sciences. The Springer Pune team of around 1500 employees are engaged in various publishing related activities and support its global clientele.

CHALLENGE

Springer Pune was in the process of adopting the “agile workplace environment”. Allocating desks and the locker in the dynamic workplace which can also complement the desk booking App became critical task for the facility team at Springer.

THE RESULT

The employees can now book their lockers through the mobile app or their employee access card.

The installation of well-organized Smart Locker solution from Fonzel has resulted in sizeable reduction of lockers compared to a conventional locker option. This enabled Springer Nature's team to efficiently manage the storage need of multiple team members who are coming to the office at the different time slots.

THE PROJECT

Fonzel provided a solution with 460 Lockers spread over 2 floors at the new Springer Pune facility to cater to the storage need of over 1500 employees. Smart Lockers at Springer Nature were built with Fonzel premium metal lockers and Vecos V3 locks.
